1. Michael Gilkey
2. Dr. Cindy Katzan
3. Lisa Murthy
4. Joe Koch
5. Marcia Stumpf
6. Rosemary Yule

Members Absent

1. Dr. Jim Mark
2. Jeannette Kramer
3. LaRaine Rimko

Welcome and introductions

New member, Marcia Stumpf, from the Clinic was introduced. Marcia works in the cardiac unit and has already helped us with a field trip to the clinic and an opportunity to see their lifeflight.

Review purpose and scope of advisory councils: This committee is very involved with field trips, guest speakers and is currently signing up to help NOHS seniors with their dissertations and will again sign up to help evaluate the presentations at the end of the year. Lisa is going to look into a possible tour of St. Johns Westshore in her new position. She also mentioned the opportunity for our students to do drive alongs with EMS. She and Marcia will look into that for us and pass that information onto us as they get it. EVERYONE talked about how hard it is today to get job shadows into their facilities. Regulations are much tighter today and students are not as easily able to come in and have those experiences.

Additional program specific agenda items: Michael is a featured speaker at this years PLTW Summit in Dayton. He will be giving a couple different presentations. Joe received a special grant at CCC for biomedical technology and will be bringing electrophoresis, PCR and other tech, along with a new class on the technology, to CCC. Joe also talked about the articulation agreement and classes and other opportunities within CCC and will send out info as he gets it.

Council member feedback, questions and comments.

Spring meeting will be held at a time determined by each individual council leader but no later than May 12, 2017.
